

SAFETY IS A STEP AWAYSM

Traction Plus[®] Slip Shield[®] Traction Treatment and Floor Maintainer (TP-121)

- Simple, do-it-yourself safety treatment and cleaner all-in-one.
- Safely penetrates the floor's natural pores to release slippery film caused by ground-in grease, soap, and mineral deposits.
- Replaces your existing floor cleaner for daily maintenance.
- Non-corrosive formula will not harm the surface or grout.
- Contains biodegradable surfactants.
- Conveniently packaged with four one-gallon jugs per case.
- Concentrated, dilute on-site to reduce waste and shipping costs.
- Traction Plus Proportioners* deliver a premixed solution which minimizes waste and eliminates daily contact with chemicals.

Traction Plus has been certified
as a "High Traction" product by the
National Floor Safety Institute

*Not recommended for polished marble surfaces. Test on a small area for compatibility.

**Natural surfaces include commercial grade glazed and unglazed ceramic tile, quarry tile, glazed and unglazed porcelain, terrazzo, saltillo tile, and concrete.

ALWAYS wear protective hand and eye wear, and slip-resistant shoes when using these products.

*Traction Plus Proportioners sold separately.

PRODUCT

Traction Plus TP-121 Floor Cleaner and Safety Treatment

DESCRIPTION

Traction *Plus* is a water-soluble solution containing a biodegradable surfactant that safely penetrates the pores of commercial-grade ceramic and quarry tile and dissolves the slippery film caused by dirt and grease buildup. Using Traction *Plus* actually strengthens tile and grout joints.

DIRECTIONS

ALWAYS WEAR GOGGLES, GLOVES AND SLIP RESISTANT SHOES WHEN USING THIS PRODUCT.

FOR SAFETY TREATING FLOORS

STEP 1: Read all directions carefully before using. MAY DULL HIGH GLOSS FLOORS. TEST FIRST ON A SMALL AREA TO VERIFY RESULTS.

STEP 2: Sweep the floor thoroughly.

STEP 3: Wearing slip-resistant shoes, damp mop the floor using clean water.

STEP 4: Pour equal amounts of Traction *Plus* and clean water into a clean, empty mop bucket.

STEP 5: Using a clean mop, apply the Traction *Plus* solution liberally to the area to be treated. Do not wring the mop.

STEP 6: Vigorously brush the floor to loosen the soil build up. NOTE: DO NOT ALLOW TO DRY.

STEP 7: Pick up the dirty solution with mop or vacuum and thoroughly rinse with clean water, changing rinse water frequently.

STEP 8: Properly dispose of dirty solution and empty containers.

FOR DAILY USE

STEP 1: Sweep floor thoroughly.

STEP 2: Combine Traction *Plus* with water according to soil load.

SOIL TYPE	OZ PER GALLON OF WATER	DILUTION
LIGHT	2 OZ / GALLON	64:1
MEDIUM	4 OZ / GALLON	32:1
HEAVY	6 OZ / GALLON	16:1

STEP 3: Wearing slip resistant shoes, mop the area with Traction *Plus* solution.

STEP 4: If necessary, rinse the floor with clean water. Allow to air dry.
